DESIGN RATIONALE

ALPHABET

I designed my fonts and colour schemes to match nature, one would represent autumn, another would represent the seaside and the last colour scheme depicts a forest.

This is because ever since I am a child I have been a nature lover, I would always go out to admire nature and its fascinating beauty. I love how every so often the weather and season would change altogether in other countries such as Korea or the USA. It shows how nature adapts to different environments to survive.

Furthermore, I can relate to it because the world we live in now changes is everchanging and to survive in it, we would have to adapt to our surroundings.
